October 25, 2017

What We'll Cover

- Settings (keyboard and texts)
- Text Messages
  - What?
  - Who?
  - Why?
  - Where?
  - HOW??
    - Keyboard options
    - Sending a text
    - Sending a text with an attachment
   - Receiving a text

Texts

- 160 character phone message between two or more people

- Use when you have a quick message to share like "I'm here"

- When it's hard to hear or you can't talk on the phone

Let's check your settings before we start

- Find the icon that looks like a gear
- Find the tab that says language and input
 - Your keyboard should be here
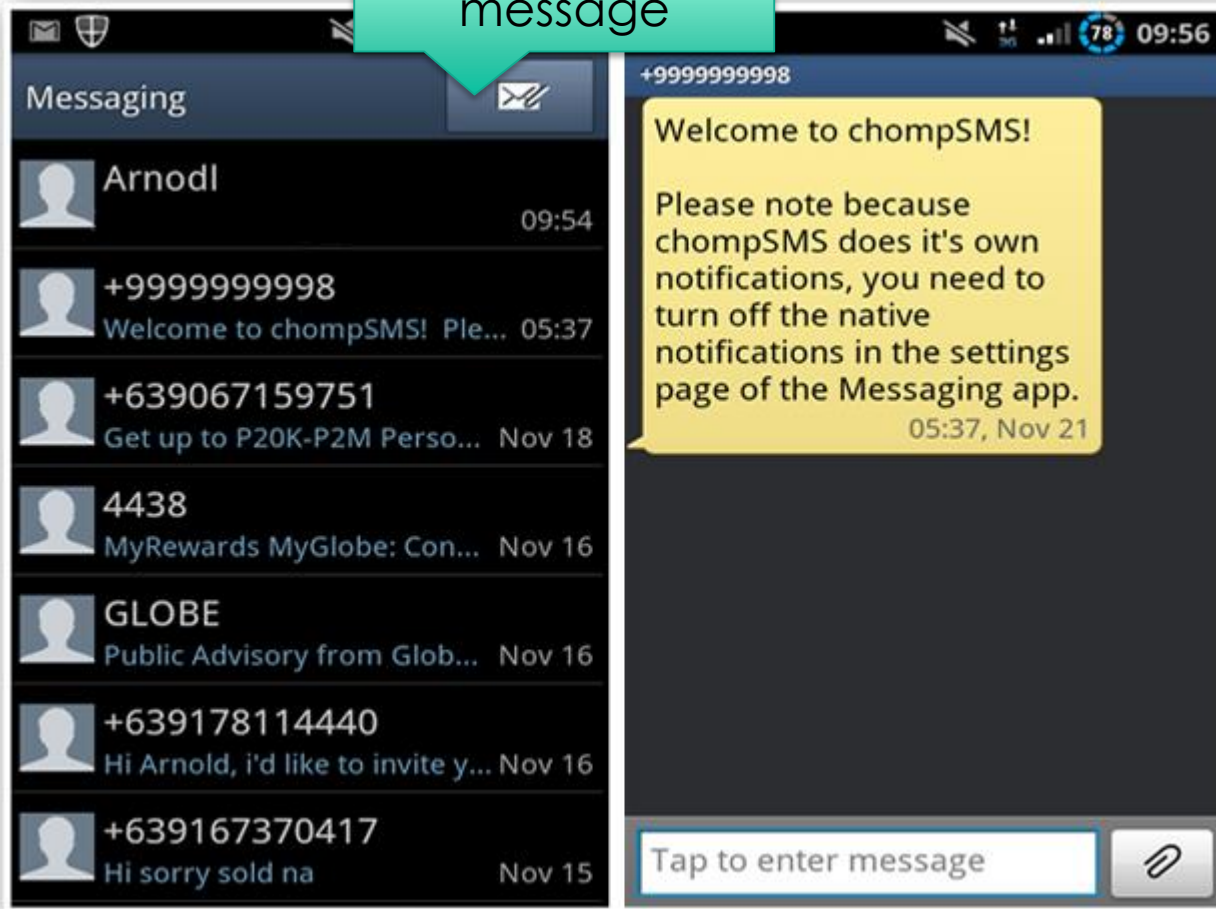

Where is the Texting app?

If you receive text messages, there may be a number next the icon that indicated the number of unread messages
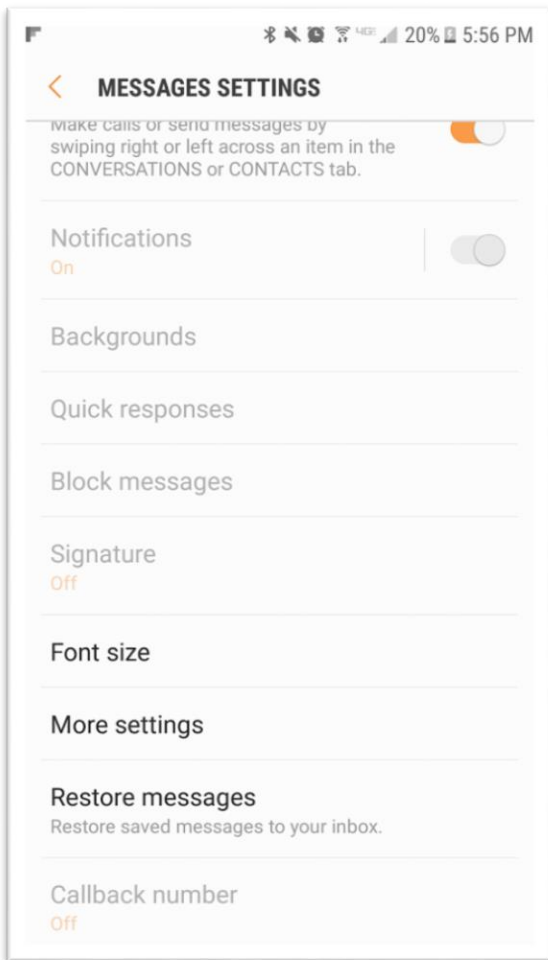

Opening the message app
Standard Texting Screen

1. Who the text is going to (can be multiple people)
2. Select recipient from contacts
3. Enter the body of the message
4. Include an attachment
5. Autocorrect or suggested words
6. Your keyboard
7. Change to get symbols and punctuation
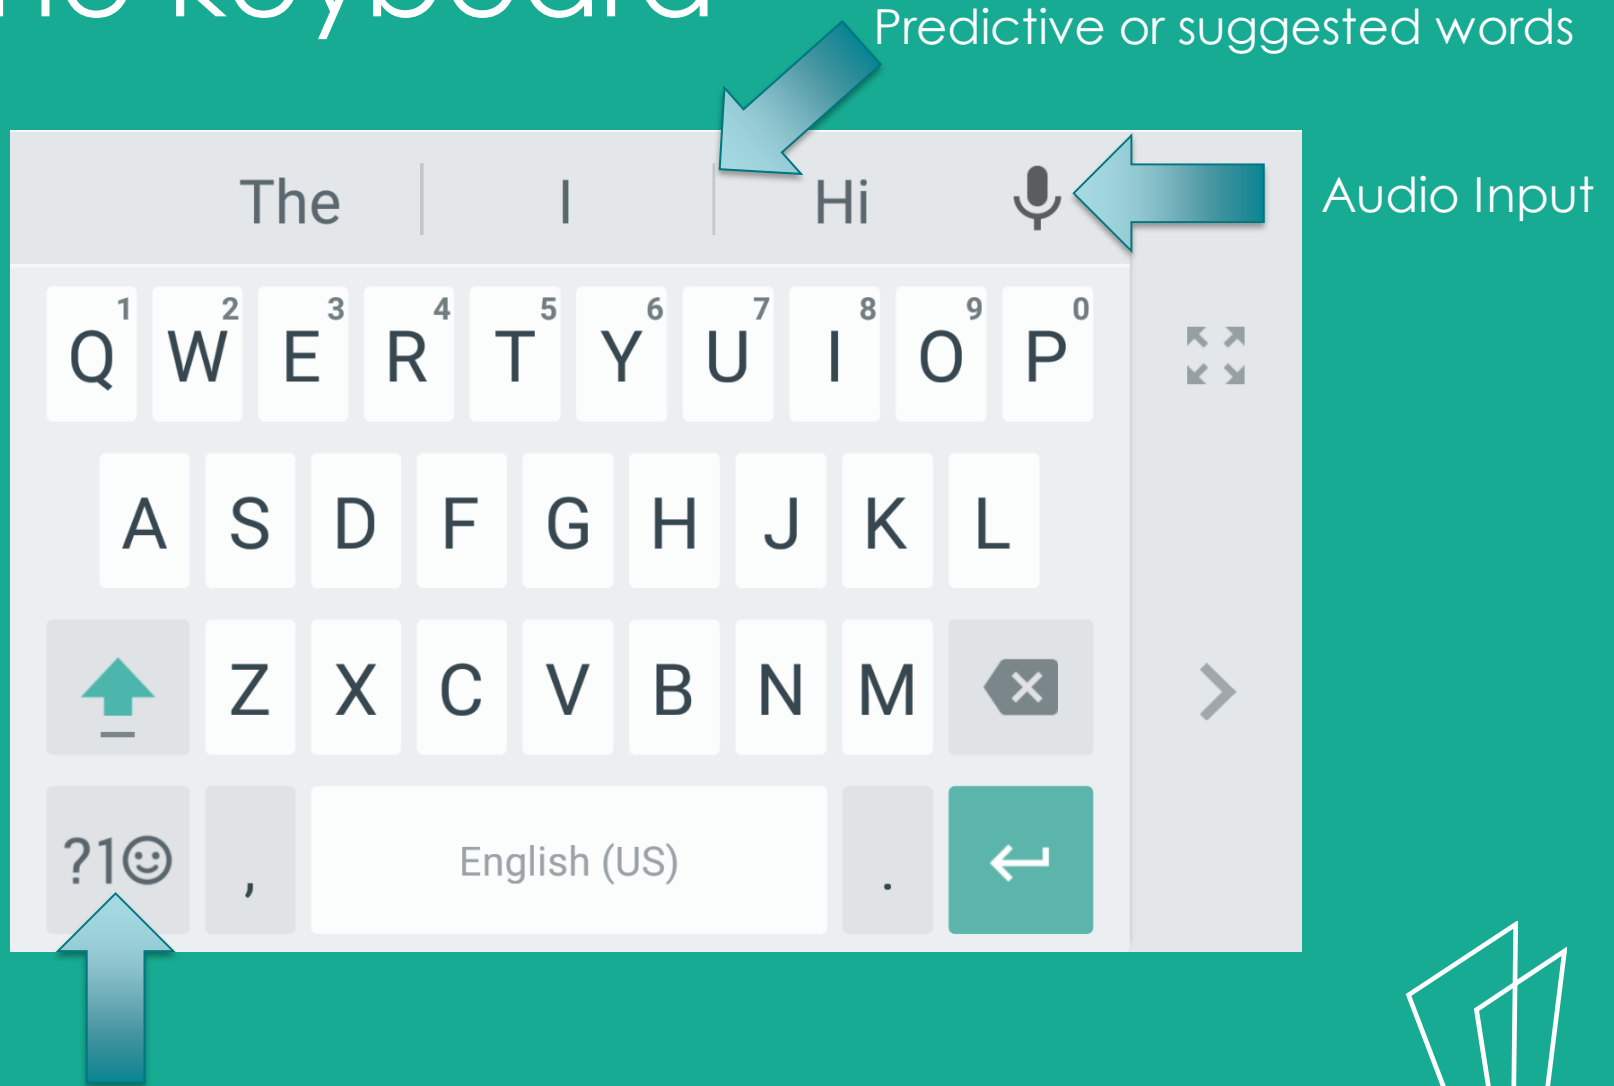

Check your app settings

- Change your font, font size, color
- Block messages
- Add a signature
- AND MORE…

The keyboard

Predictive or suggested words
