

**Keep all your work in one secure place with online file storage.**

After you store your files in Google Drive, you can share them with others and access them on any computer, smartphone, or tablet. When you change or delete a file stored in one of these locations, Drive makes the same change everywhere else so you don't have to.

1

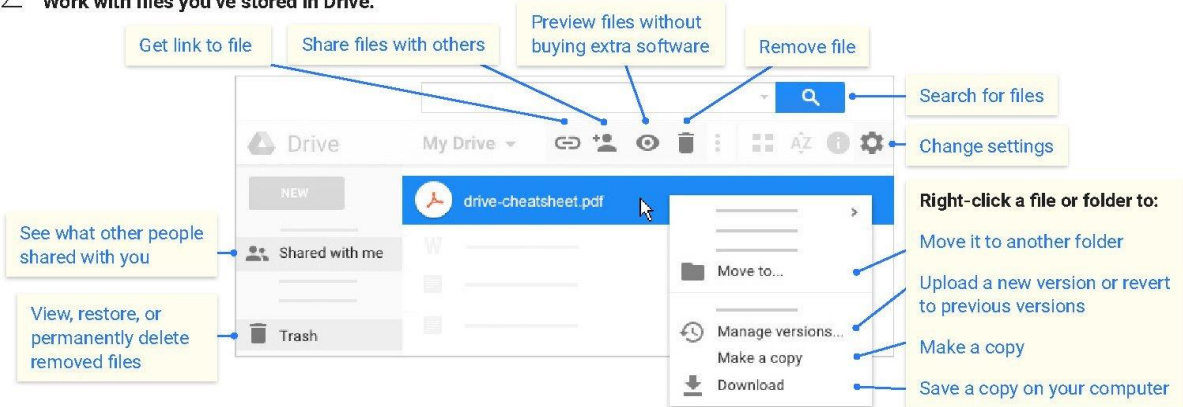

**a Upload any files (such as PDFs, videos, and pictures) and folders from your computer.**

**b Create new documents right in your browser.**

Description	Example uses
<b>Text documents</b>	Proposals, reports, shared meeting notes
<b>Spreadsheets</b>	Project plans, budget sheets
<b>Presentations</b>	Pitch decks, training modules, team presentations
<b>Surveys</b>	Customer satisfaction surveys, group polls
<b>Drawings</b>	Flowcharts, diagrams, wireframes

2

**Work with files you've stored in Drive.**

3

Click to share your files and folders, then choose what collaborators can do. They'll also receive an email notification.

	Delete files and folders	Add and remove files and folders	Share or unshare files and folders	Edit Docs files	Comment or suggest edits in files	View files and folders
<b>Can edit</b>	X	X	X	X	X	X
<b>Can comment</b>					X	X
<b>Can view</b>						X

4

**Access your files from any device.**

Browser or device	Requirements	How to access
